BE on the lookout for a “yeah, yeah” celebration from Collingwood forward **Jack Anthony** the next time he snags a goal.

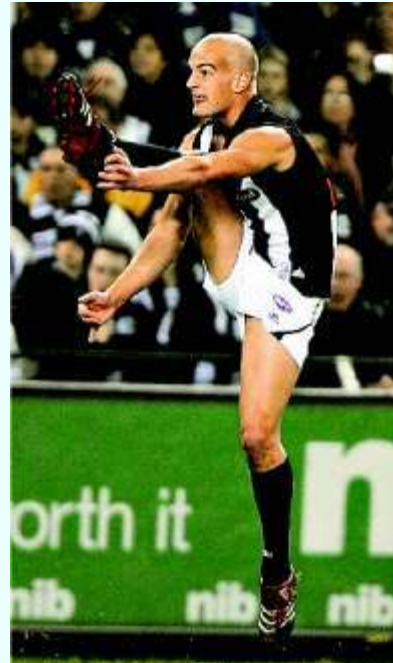

The 21-year-old is receiving laser therapy from Advanced Hair treatment and is in the process of negotiating a deal to join the likes of goalkicking great **Tony Lockett**, **Shane Warne**, **Greg Matthews** and **Graham Gooch**.

Advanced Hair managing director **Carl Howell** confirmed the star was receiving treatment.

“Jack’s having laser therapy treatment,” Howell said.

“He’s been having treatment for two months and we’re seeing results already.”

Asked if it was likely Anthony would become a spokesman for the company, Howell said: “Absolutely.”
